%%<=====
```

Quick description of contents:

```
README.test      : the file you are reading.

fxench.tst       : this file has to be converted to 8-bit and renamed french.tst;
                  this is the bi-lingual torture test basic file used to
                  typeset the following documents:

frenchlb.tex     : a french LaTeX book (to be compared at printing level
                  with frenchrf.dvi),

frenT1lb.tex     : the same, but with T1 font encoding forced.

babel1b.tex      : the same, but french loaded by Babel

babelplb.tex     : the same, but with frenchpro option of Babel

texxet1b.tex     : the same to be run with any TeXXeT engine.

frenchab.tex     : the same with AmsLaTeX.

frenchlm.tex     : the same, loading the french style after \documentstyle.

frenchln.tex     : the same, loading the french style before \documentstyle.
                  and testing the "poor man french style" option.

frenchlr.tex     : a french LaTeX report

frenchla.tex     : a french LaTeX article

frenchll.tex     : a french LaTeX letter (just a test)
```
