CAUTION : ALL FILES HAVE CHANGED since the last distribution.

This material was designed to help (La)TeX users to print French documents i.e. according to French typographic habits. Here are the source files for producing the documentation.

The French Pro distribution, as provided by his author is composed of other directories. The "doc" directory hosts the following files :

french_doc.pdf: the code of French Pro with its comments and the Copyright
frenchlu.tex   : the LaTeX users manual and installation manual for
                  the French Pro package (source file).
frguide.tex    : just the user's guide (source file).
frguide.pdf    : printable French Pro users's guide.
frenchle.pdf   : printable frenchle users's guide
frenchpro.pdf  : printable French Pro users's and installer's guide (link).
mymaj.sty      : a style to print change bars (used in previous files)
myfroptn.sty   : a sample of personal style file with French Pro options

```

other *.pdf files are source files provided in a pdf printable format.

Your optional "TO DO" list: (the documentation is already provided in the

===== master directory: ALIRE.pdf)

- 1- (I hope you have already generated kb7to8 and kb8to7)
Convert the file frdoc.tex and frenchlu.tex to 8-bit.
- 2- Then the commands: [frpdf]latex frenchlu
makeindex -s fridx1.ist frenchlu
[frpdf]latex frenchlu
would normally provide a readable complete French documentation,
i mean a [.pdf/].dvi file that could be previewed or printed via the
appropriate driver. This should normally provide the same
viewed file as ALIRE.pdf in the root directory.
- 3- Move frguide.pdf adn frldoc.pdf to the documentation directory
where you want the user find it.

Hope you enjoy it,

Bernard GAULLE
